

ALKEMI-copper Overview

Recycled content:

Certified containing 88% to 97% pre-consumer recycled content of copper, solid surface and recycled acrylic. ALKEMI-copper contributes toward satisfying credits 4.0, 4.1 and 4.2 under LEED®. (*Highest recycled content surfacing in the World*)

Air quality:

SCS Indoor Advantage Gold certified, VOC free, ALKEMI-copper is safe for people and friendly to the environment.

EPA approved testing of ALKEMI-copper performed by **Paradigm Environmental Services** yielded no significant traces of volatile compounds. Of the more than 40 target compounds tested, the only traceable chemical revealed was acetone in amounts totaling less than 5 parts per million (*considerably less than found in the mildest nail polish removers*).

LEED compliant:

ALKEMI-copper may qualify for credits 4.0, 4.1 and 4.2 under LEED.

Lifecycle:

Made in the USA...again, from post-industrial waste, ALKEMI-copper can be recycled at the end of its lifecycle.

Accreditation: Certifications may be downloaded at renewedmaterials.com/alkemi-copper

Specifications:

Finishes:	Matte to high-gloss (achieved by fabricator)	
Thickness:	1/2" (13 mm) or 3/4" (19 mm) Tolerance + - .03" (.76 mm)	
Dimensions:	36" x 96"	(92 cm x 244 cm)
	36" x 120"	(92 cm x 305 cm)
	36" x 144"	(92 cm x 366 cm)
	Tolerance + - .5"	(13 mm)

Uses of ALKEMI-copper:

ALKEMI-copper is appropriate for both horizontal and vertical surface applications. Perfect for commercial and residential interior surfaces, such as countertops, wall surfaces, furniture surfaces, and bathroom vanities and showers surrounds, to name a few.

Fabrication:

ALKEMI-copper may be fabricated and installed by qualified solid surface professionals using conventional woodworking tools and solid surface methods. Versatile and practical, it is the perfect surfacing alternative for both horizontal and vertical decorative surface applications.

ALKEMI-copper is a testament of our company's commitment to continually develop and bring to market the most innovative and design driven, environmentally beneficial sustainable materials.
